

Alpha 4

Overview

Alpha 4 is a 4-way DMX splitter that effectively reduces signal-loss during long range transmissions. With its multiple input and output options **Alpha 4** is easy to integrate in any project, sporting 1 input and 1 thru output plus 4 distributed outputs (optically isolated), providing 3 pin or 5 pin DMX thru output connectors (XLR-D3F/XLR-D5F).

Specifications

Features

- DMX-512 signal
- Optically isolated
- Optimize signal quality during long-range transmissions

Connections

- 4 3-pin XLR connectors: DMX output
- 1 3-pin XLR connector: DMX Input
- 1 3-pin XLR connector: DMX thru output connector

1 Power input

Physical

Dimensions: 440x140x40 mm. / 17x5.5x1.57 in.
Weight: 3 Kg. / 6.6 Lbs.
