

Elfin Flower I

Overview

Elfin Flower I is a LED moonflower effect powered by 66 RGBW (16R, 16G, 16B, 18W) 10 mm. LEDs that provides rich & colorful performances with a 48 degrees beam angle. The unit comes in a strong and lightweight plastic case, ideal for mobile applications. **Elfin Flower I** also includes a sound active mode and all-night performance with no duty cycles.

Specifications

Source & Optics

Light source: 66 x RGBW (16R, 16G, 16B, 18W) 10 mm. LEDs
LEDs life: 100,000 hours
Beam angle: 48°

Effects & Functions

Moonflower effect
Strobe effect

Rich colors

Control

Operational mode: Sound-active

Electrical

Input voltage range: AC 100–240V,
50–60Hz
Power consumption: 3.5W

Physical

Built-in microphone
Sound sensitivity control
Dimensions: 170x165 mm. / 6.7x6.5 in.
Weight: 0.5 Kg. / 1.1 Lbs.
